# Facial Treatments

## **Dermaplaning Facial** (60 min)

£55

An exfoliative treatment performed using a scalpel to 'shave' away the outermost layers of the skin and fine fluffy hairs on the face and neck. This process is painless and very safe. Skin is left smoother and brighter and make-up goes on smoothly creating a flawless look. Includes a light enzyme peel to optimise the exfoliating process.

## **PRoSkIN anti-ageing Radio Frequency Facial** (60 min)

£55

Deep professional exfoliation to kick start skin renewal, gentle radio frequency waves shrink the collagen bundles producing a tightening effect in the skin resulting in a firmer, refreshed and more youthful complexion. Eyelids and brows are lifted, wrinkles reduced and the contour of the jawline is sharpened. LED light stimulates cell renewal and collagen production.

## **LED Light Therapy Facial** (60 min)

£55

Our most intensive facial treatment. Delivers personalised bio+ charged therapy for more visible, rapid results. Advanced technology including gentle chemical currents to ensure deep delivery of active ingredients coupled with photodynamic light therapy to maximise results.

## **Digital Skin Needling** (60 min)

£65

A non-ablative skin rejuvenation technique. The microneedle roller creates a multitude of tiny pin-prick wounds to the skin which induces the release of growth factors that stimulate the production and formation of new collagen and elastin.
